

Signs of Suicide Virtual Parent Presentation

Tuesday, September 27, 2022

7:00 pm

Presented by Tracy Klingener, Director of Suicide Prevention Services with the Mental Health
Association of Essex and Morris

Please use this QR Code (or email mstiles@greenhills.org) to RSVP. A zoom link will be emailed on the day of the presentation to those who RSVP.

Suicide is the second leading cause of death in adolescence, but you can't imagine that a child you know might become one of those statistics. When do the normal ups and downs of adolescence become something to worry about? Learn how you can know if suicide is a risk for your family. Become familiar with the warning signs. And if you are worried, learn what you can do and say to help.
