MEMORANDUM

To: Marie Bilik, BOE President, & Ann Marie Cooke, BOE Vice-President

From: Dr. Lydia E. Furnari, Interim Superintendent 

Date: October 21, 2020

Re: District Goals 2020-2021

Goal 1: By June 2021, the Green Township School District will foster and support its policy for respectful communication and collaboration among all members of our school community, taking into consideration the uniqueness of the hybrid and remote learning environments currently in place due the COVID-19 health emergency, including supports for parents related to their changing role in the daily educational life of their children as measured by communication records, workshops, newsletters and other digital means of communication.

Goal 2: By June 2021, the Green Township School District will provide every student with educational opportunities designed to support academic and social emotional learning using the Formative Five “success skills”; integrity, empathy, self-control, embracing diversity and grit, in order to encourage academic and social-emotional self-confidence, curiosity, perseverance, reflection and creativity, as measured by a variety of quantitative and qualitative school data.

Goal 3: By June 2021, the Green Township School District will continue to evaluate current practices regarding management of fiscal, operational and human resources that support the District’s vision, mission, goals and objectives, and will make modifications for improvement based on that evaluation, as measured by data gathered during our participation in activities including but not limited to the Tri-District Consortium, the annual audit, the Sussex County Restart & Recovery School Reopening Committee and other local data. It should be noted that while collaboration is important, we continue to be committed to maintaining the uniqueness and individuality of the Green Township School District.
