RE: Resignation

Dear Superintendent Nittolo,

It is with very mixed feelings that I tender my resignation to you after working for the Green Hills School for the past 11 years as the school's Associate School Library Media Specialist and part time Special Education Teacher. I appreciate all the opportunities I was given while at the Green Hills School and it was a privilege to have worked with such outstanding educators and just great human beings. I will never forget the compassion I was given by the entire staff and administration when my husband had his life changing motorcycle accident in 2011. I will always recall the love and dignity I was shown when I had my AVM (brain bleed) in 2013. Yes, Green is definitely a family.

I have sold my beloved home and relocated to Point Pleasant for an easier lifestyle. I will be seeking employment at the shore. You will be contacted as a reference and I can only hope that you would see me as favorably as I saw my experience at Green and give me a good recommendation. Please do treasure and respect the teachers at our school because we have some of the best educators in the state.

I am aware that Karen Bessin was working on her graduate degree to take over my position, but instead she left for a school district much closer to her home. I can recommend a certified school library media specialist who was previously a high school language arts teacher. This media specialist is also a Green Hills School parent and she began volunteering in our library at the end of this school year. I am confident in recommending her for the position and I believe she would prefer to work for Green Hills School instead of the high school where she presently works as a library media specialist. Presently I have not secured employment at the shore so I can stay this Tuesday, Wednesday, and Thursday to help familiarize a person of your choosing with our system and procedures. All of my lesson plans are on the computer and are available for use by my replacement. My curriculum is available along with my benchmarks. I apologize for the short notice but the buyer presented with many problems causing the closing to be delayed until August 24th.

It has been my honor to have worked in a school such as Green Hills School. Be well my friends!

Very truly yours,

Patricia-Ann Cozzarelli
